For more than five years as a self-taught developer, I'm constantly learning and perfecting my skill as a developer every day. I enjoy challenges and goals that force me to increase my knowledge and skills. I like to create things with JavaScript/TypeScript technologies that can help people do their chores easiest and faster.

EXPERIENCE

Front-end Developer @ *EDteam*

JUL 2021 - PRESENT

My main chores were maintaining a web application built with Next.js and JavaScript, I also collaborated in the development of a static website built Next.js and TypeScript to avoid the overload of pages and requests in the web application.

Freelancer Web Develop @ *Self-employed*

FEB 2020 - JUL 2021

I've developed websites and small projects for local businesses to help them to start their business in the digital world.
